## Henderson Out As Head Water Dept.

Resignation Presented to the  
Board of Trustees and  
Accepted

Rooster Ordinance Engages  
Attention of Trustees—  
Action Postponed

Resignation of Tom Henderson as superintendent of the water department was presented to the city trustees at a special meeting of the board Friday night. The resignation was accepted promptly by the board, effective April 30. Mr. Henderson was given leave of absence with pay for the intervening time, this being due him as vacation time which he did not take last summer. The board voted to place Vernon Udell in charge of the water department temporarily.

The special meeting of the board was held pursuant to action taken at the regular meeting Thursday night. The adjournment to Friday day night was voted after a recess during the members of the board, City Attorney Baker and Mr. Henderson held a conference in the rear room of the city hall, at which the course of action appears to have been agreed upon.

### Chicken Ordinance

At the Thursday night meeting the first subject to receive attention was the proposed ordinance to prohibit the keeping of domestic animals or fowls which might cause a noise nuisance. There was a heated discussion by citizens on both sides of the fence. Several poultry raisers declared the ordinance would put them out of business. Several citizens urged the need of protection from annoyance, and several communications favoring the ordinance were read. One of the principal arguments against the ordinance was the broad wording which caused the fear of unreasonable enforcement. On motion of Trustee Isaacs, seconded by Trustee Isaacs, the ordinance was laid over.

A petition signed by property owners on East Live Oak Avenue requested the city to improve the street by surfacing with oil and rock, one-half of the expense to be borne by the property owners. On motion of Trustee Isaacs, seconded by Trustee Isaacs, the street superintendent was instructed to grade and surface the street, the expense to the city not to exceed \$260.

Opening of Lowell Avenue east from Baldwin Avenue to connect with Sierra Place and Mountain Trail Avenue was requested by property owners. On motion of Trustee Isaacs, seconded by Trustee Isaacs, the street superintendent was instructed to investigate the matter and report at the next meeting.

Reports from Engineer R. F. Gouty of the state board of health and from City Engineer Gillich concerning the cost and requirements of putting the canyon swimming pool into operation were received and placed on file.

Plans for a sprinkler system and drinking fountains for the city park will be prepared by the city engineer under a motion offered by Trustee Hall, seconded by Trustee Isaacs. The plans together with a notice calling for bids will be presented at the next meeting of the board.

Improvement of Sturtevant Road is contemplated by a motion offered by Trustee Isaacs and adopted by the board. The city engineer is instructed to prepare the necessary plans and specifications. The right of way at the curve just outside the canyon entrance was adjusted by the acceptance of deeds to a narrow strip on the east side of the street which will offset the strip vacated by the city on the west side where a private wall has been built on the right of way. The change will have the advantage of making the curve a little less sharp.

The board voted to enter into a contract with Pearson and Dickerson for the improvement of that portion of East Grand View Avenue lying along the water department lands.

The Well Baby clinic will be held according to regular schedule next Thursday morning in the park house. The attendance of mothers and young babies at these clinics has been so great as to more than justify the effort to hold them here regularly. There is no charge for examinations and advice and a splendid effort is being made to promote the general health average among the children of pre-school age.

## DO YOUR CHRISTMAS- CARD SHOPPING EARLY; IT WILL BE A PLEASURE

The News has been forehanded this year in the matter of giving our subscribers an opportunity to select their Christmas cards early, thus eliminating possibility of the usual last-minute regrets.

In offering a special line of samples during the next week, the News takes opportunity to state that the line in question is not only the handsomest that has ever come to our attention, but the most reasonable in price.

Our friends will find it a real pleasure to look over the assortment even if they do not feel inclined to do their Christmas-card shopping quite so early.

Remember we are permitted the use of the samples for just a few days—until next Wednesday noon—for this pre-season showing.

## Irish Leader Visits With Mrs. Barker

De Valera Cousin of Local  
Resident—Engaged In  
Lecture Tour

Mrs. R. M. Barker of 282 San Gabriel Court, Sierra Madre municipal nurse, enjoyed a brief visit last week with Eamonn de Valera, formerly president of the Irish Republic, who is her cousin. He made a very brief stay in Los Angeles and Pasadena in the course of a lecture tour.

DeValera's father was a Spanish artist and his mother was a sister of Mrs. Barker's father, Edward Coll of New York. The boy was born in New York and was left an orphan at two years of age. Mr. Barker, who was then a young man, took the youngster to his mother in Ireland and de Valera was raised by the grandmother. He made his own way through school and college, being highly educated and winning many degrees.

Mrs. Barker has met de Valera a number of times in the past, and says his mild temperament and demeanor are far different from the average person's conception of a revolutionist. He has spent so much time in prison because of his devotion to the cause of Irish freedom that the effects are shown in his physical condition. He still believes complete independence is the only satisfactory solution of the Irish problem and that the Irish Free State is only a makeshift.

Miss Lydia Webster and Miss Florence Vannier will entertain the Modern Priscillas on Thursday, May 28, in the Parish House of the Church of the Ascension.

Mr. and Mrs. William E. Colley of Barrington, R. I., who have been spending the winter in Honolulu, are visiting their cousin, Miss Ella Shepherd Bush of 223 West Laurel.

## Election of Officers to Be Held Tuesday

Wednesday, April 27th, will be election day at the Woman's Club. The following candidates will appear on the ballot: President, Mrs. Fletcher White; first vice president, Mrs. John Osgood; second vice president, Mrs. F. L. C. Rees; recording secretary, Mrs. Neess Young; corresponding secretary, Miss Clara Sykes; treasurer, Mrs. Wm. Lees; auditor, Mrs. Harvey Steinberger. Four directors are to be chosen from the following: Mrs. W. Humphries, Mrs. N. Tarr, Mrs. E. E. Bacon, Mrs. F. J. Hart, Mrs. D. G. Coover, Mrs. Bradley Metcalf, Mrs. Wm. Burkhardt, Mrs. W. Poehler. A large attendance is urged that a representative vote may be cast.

Child Welfare will be the topic for the afternoon program, which is in charge of Mrs. C. L. Hoover. An address will be given by Mrs. Edmond M. Lazard. Mrs. M. Gruit will speak on "Child Welfare in Sierra Madre." A play will be presented by children from the school.

A bridge luncheon will be held at the club house Monday, May 2nd, at 12:30. Bridge and 500 will be played, while a May party will be held in the Osgood Room for non-players. There will be three prizes for bridge, three for 500 and a door prize. The party is in charge of Mrs. Geo. Lehner.

## Clubs to Stage Program Late Coming Month

Hollywood Bowl to be Scene  
of Pageantry, Music and  
Drama

Local Club to Feature Wista-  
ria in Decorations of  
Special Box

Mrs. Fletcher H. White, president of the Sierra Madre Woman's club, attended a mass meeting of the presidents of the Woman's clubs of Los Angeles district, on Tuesday. She was accompanied by Mesdames Laura M. Cline, W. R. Morgan, George Ferris, Homer Glidden, W. H. Ingraham and Bess Rhoades.

This meeting was under the capable direction of Mrs. J. Birney Lorbeer, president of the district which consists of the counties of Ventura, Los Angeles and San Luis Obispo, and Mrs. Leland Atherton Irish, director of the Hollywood Bowl. The motive for the gathering was to formulate plans for a stupendous May Festival to be held on Saturday, May 21, from 10:30 to 4 o'clock in the Hollywood Bowl. The proceeds are to go to the federation headquarters.

All the clubs in the district are very enthusiastic over the undertaking and will participate in some way. There will be pageantry in all its beauty, including floats suggestive of interests, industries, etc., in the different localities. A noted actress will participate as Queen of the May. She will be exquisitely gowned, as will her array of attendants. A very beautiful program is being perfected. The Woman's Symphony Orchestra, the Lyric Club and prominent soloists will take part.

Luncheon will be enjoyed, picnic style. All the requisites for such a lunch, including sandwiches, will be on sale. Mothers will be glad to know of the day nursery which will be under the supervision of trained attendants. Parking facilities will be plentiful. Tickets, which are being sold for a very small sum, may be secured from Mrs. White. She has in mind the reservation of a section for Sierra Madre, distinguished from the others by the use of decoration in wistaria color.

## Surfacing of E. Live Oak Is Completed

Improvement of East Live Oak Avenue has just been completed under the cooperative plan and residents of that district feel they now have one of the most attractive streets in town. Half the expense was borne by them and half by the city. As the entire frontage on the south side of the street belongs to the Baldwin and Stocker holdings and lies within the city of Arcadia, there was no chance of securing a part of the cost from that source.

Under direction of Street Superintendent Udell a splendid job has been done on the street which now has a surfaced roadway from 20 to 24 feet wide. One feature of the plans calls for the maintenance of a bridge path along the south side of the street, which will meet with the favor of equestrians and motorists alike.

Petitions are now being circulated for the similar improvement of West Live Oak Avenue. If this is done, that street will become one of the most attractive drives in Sierra Madre. With many beautiful homes and a splendid mountain view on the north side, and the matchless Baldwin oak groves on the other side, it is bound to become popular with sightseers.

Sierra Madre's second Easter sunrise service was held at Scenic Point with good attendance and an inspiring program. Weather conditions were perfect and the setting inspiring. The services were conducted by Rev. Dr. Elwood P. Lyon and included selections by the orchestra under the direction of Gus Rihard, anthems by a male chorus, the reading of Van Dyke's "God of the Open Air," by Harold D. Carewe, and a sermon by Rev. A. O. Pritchard. The program was arranged and all preparations made by Messrs. W. R. Humphries and J. M. Campbell of the Chamber of Commerce, which also provided the printed programs with the words of the hymns.

Easter services in all the Sierra Madre churches were well attended and full of interest.

## RETURN FROM AN ENJOYABLE TRIP IN EAST

Mr. and Mrs. Preston Schwartz returned home on Sunday from a three-weeks' trip to New York and Philadelphia. Mr. Schwartz was attending rug auctions for the Pacific Coast branches of Peck & Hills.

While they were in New York they enjoyed a visit from their oldest son, Charles W. Schwartz III, and Mrs. Schwartz accompanied him to his home in Providence, R. I. While there she enjoyed a number of fine drives thru that beautiful country with its many places of historic interest. Charlie Schwartz is salesman for Proctor & Schwartz, makers of drying equipment for large industrial concerns.

In Philadelphia Mr. and Mrs. Schwartz enjoyed a very happy family reunion before returning home. They still think California is the best place in the world to live in.

## Carr Writes of Early Days In 'Wild West'

Is Familiar With the Epochal  
Days in the Black Hills  
of South Dakota

Robert V. Carr, well known Sierra Madre writer and author of many "western novels" and poems, has two "stories" in the current issue of "Frontier Stories." An article dealing with the life of Ellis Taylor Pierce, one of the well known characters of the old west, is particularly interesting. Dealing with the old days in the famous Black Hills region of South Dakota, it offers sidelights on the character of one of the splendid men who helped to preserve law and order in the days when men were men in the mornings and sometimes corpses at night.

There is no one more competent to write of the West than Carr. His boyhood was spent among the famous characters of that most romantic period of this country's history, and he numbered most of the "old-timers" among his personal friends.

## TRACY D. VEON PASSES AWAY IN THE NORTH

Tracy D. Veon, a former resident of Sierra Madre, passed away this week in San Francisco. The remains were brought to Alhambra where funeral services will be conducted this afternoon by officers of Sierra Madre Lodge No. 408, F. & A. M., of which Mr. Veon was a member.

Mr. Veon and his wife came to Sierra Madre about 1910 for the benefit of his health, spending a couple of years here and winning many warm friends. After a long fight he recovered sufficiently to return to railroad service and was for several years chief special agent for the Pacific Electric. A year or two ago he was transferred to the Southern Pacific and assigned to duties in San Francisco.

Freddie Pagenkopf, young son of Mr. and Mrs. F. A. Pagenkopf, fell and broke his arm Wednesday. He is being cared for at home.

Mr. and Mrs. George P. Rikeman of 29 West Live Oak had as a guest last Saturday Mr. A. L. Roche of Boston. Mr. Roche is connected with the L. C. Page publishing concern and was greatly delighted with the home setting of his old friends.

## CAMP FIRE GIRLS TO RAISE FUNDS FOR CAMP

The Los Angeles District of Camp Fire Girls will hold a rummage sale in Los Angeles the latter part of this month. The money thus raised will be used for the summer camp in the San Bernardino Mountains.

Each Camp Fire group is anxious to do everything to make this camp a success and the local group is asking the people of Sierra Madre for used clothing. This sale will be held in a district where the need is great and the Camp Fire organization will be performing a service to the community as well as making money for their camp.

If anyone wishing to dispose of old clothing will please call Blue 77, or after Sunday, Red 90, the girls will be glad to call and get it.

## Firemen Offer Last Dance of The Season

Usual Good Time Is Promised  
All Who Attend Satur-  
Night's Frolic

Funds Realized Are Put to  
Work in Worthy Manner  
by Department

The last dance of the season in the series given by the Volunteer Firemen of Sierra Madre will be held Saturday night in the Woman's Club house. Harold Brown's orchestra will furnish the music and the committee in charge has made ample provision to ensure everybody having a good time.

Card players will be well taken care of also, and some attractive prizes are offered. Special attention will be given to this feature. The admission tickets are good for dancing and cards as well.

It is hoped this last dance will in some measure offset the financial hard luck which has attended some of the earlier events. The funds of the firemen are used for genuinely worthy purposes and a very substantial profit would not only be welcome but beneficial in many directions.

In a quiet way, the volunteer firemen have done a vast amount of charitable work, giving assistance in many needy cases. They have contributed from their treasury for many worthy causes. There is no public fund from which the firemen can be reimbursed if he answers an emergency fire alarm in his best clothes and they are damaged by chemicals or otherwise. This is another worthy purpose to which the company funds are devoted.

Tickets may be obtained at the city hall or from members of the department. Get some tickets and help the good cause. Go to the dance and have a good time.

## Boy Is Badly Hurt In Fall From Tower

Billy Stecker, the young son of Mr. and Mrs. Jason C. Stecker of Santa Anita ranch, had a narrow escape from death last week when he fell from a 30-foot tower at one of the ranch wells. He is now at the Alhambra Hospital undergoing treatment for his injuries, the most serious being a fractured pelvis and a crushed ankle.

Nobody saw the accident but the cause is supposed to have been the breaking of a cross-grained two-by-four railing on which he may have been leaning. Blake Manning was playing near him but did not see him fall. Billie struck first on the edge of a cement pier box and then fell several feet further to the bottom of the hole, being unconscious and thoroughly chilled by the shallow water when rescued.

At last reports the lad's condition was showing improvement. Temperature was lowering until Wednesday when it was reported normal and considered an excellent indication. Billie was a pupil of the Sierra Madre school and his parents have many friends in Sierra Madre who sympathize with them deeply.

## Freeman Wins at Lankershim

A. C. Freeman brought home another bunch of ribbons from the San Fernando Valley rabbit and poultry show at Lankershim last week. His seven entries won three firsts, two seconds and two thirds. American Whites, a newly standardized variety for which Mr. Freeman claims the credit, were much in evidence, one of this breed being adjudged the best furred rabbit in the show. Mr. Freeman was judge of the Chin-chillas and did not enter his own stock in that class.

## Monrovia Orchestra In Fine Program

The Monrovia Community Orchestra under the direction of John R. Bayley, will present a program at the Presbyterian Church, Monrovia, Tuesday evening, April 26, at 8:15. The orchestra will be assisted by Marie McAdoo Miller, harpist.

The annual concert by this splendid organization have gained wide commendation and are looked forward to with eagerness by the music lovers of the valley. The program for next Tuesday evening embraces compositions from the leading composers and will be well worth the attention of Sierra Madre musicians and music-lovers.

## A. M. UDELL TO LEAVE SERVICE OF CITY TO TAKE IMPORTANT 'JOB'

A. M. Udell expects soon to leave the service of the city to take an important position in the construction and engineering department of a large real estate corporation. Contrary to reports in circulation, he has not presented his resignation. In order to give the city trustees plenty of notice so they could be considering the matter of a successor, he told them some time ago of his intention. They received the information with keen regret, knowing it will be a difficult task to find another man so well suited to occupy the offices of marshal, street superintendent, electrical and plumbing inspector, license collector, poundmaster, etc.

As Mr. Udell did not expect to enter upon his new employment before June he had planned not to file his resignation or make it public until later. The news seems to have leaked out and has already brought many expressions of regret, and urgent efforts to persuade him to continue in the city service.

## Church Fund Increased by Large Sum

Easter-Day Pledges Increases  
Sum Now Available to  
\$38,000.00

Hope to Start Actual Build-  
ing Program Early in  
June

Substantial progress in the campaign for the Congregational Church building fund was registered on Easter Sunday. Contributions which were deposited in the collections or reported as received within a short time previous amounted to nearly \$5,000, bringing the total of cash and pledges now on hand to \$38,000.

At the morning service the church was crowded to overflowing, many standing in the lobby throughout the service. A cash collection of \$170 from the Sunday School was reported. There was no announcement of individual gifts, all being deposited in the collection plates, and the total reported by the building committee at the close. Forty people were received into membership by the pastor, Rev. A. O. Pritchard.

In the evening the service was conducted entirely by the boys of the Comrades Club, with Preston Schwartz presiding. A splendid address was given by Dennis H. Stovall on the religion of modern youth. A pledge of \$500 for the building fund by the Comrades was announced, this being in addition to their individual pledges. The present status of the building enterprise is told in the following letter from E. E. Bacon, vice chairman of the committee:

Sierra Madre, April 21, 1927.  
Editors Sierra Madre News:

The Building Committee of the Congregational Church desires, through the columns of the News, to express our deep appreciation of the contributions for our new church, made during the canvass that culminated on Easter Day. Added to previous gifts and pledges, they increased our fund to approximately \$38,000.00. The subscriptions received from non-members were all the more gratifying because we had purposely avoided any semblance of "high power salesmanship," and every response was therefore proof of the good will of the community toward our project. We are also greatly indebted to the News for its encouraging support, in news columns and on editorial page.

Our committee welcomes this opportunity to make a definite statement to the people of Sierra Madre concerning the present status and prospects of our undertaking.

The designs for our new building, both exterior and interior, have been before the public some time and appear to be unanimously approved. The architectural features were submitted for the professional criticism, and received the commendation, of a firm of architects having to their credit the designing of many of the finest church buildings throughout Southern California. The floor plans, particularly the provisions made for religious education, and recreation, of the youth of Sierra Madre have received full approval by expert authorities.

Our building committee therefore feels that the question, What to build, is now at rest. There remains only the questions, How? and When?

The architect's estimate of construction cost is \$60,000. Add commissions and inevitable "extras," and we have an estimated total of \$65,000 to be financed.

The church is fortunate in already owning, free of debt, the ideal site at the corner of Hermon and Central Avenues, opposite the city park. Furnishing, other than organ, is expected to be provided by the sale of the present building and site.

Of the \$65,000 to be raised, at least \$35,000 has already been contributed or pledged by individuals and families directly connected with our church organization. Another \$10,000 is assured from our Congregational Building Society, available when the building is completed and fully financed.

Of the other \$20,000 needed, we have hoped that \$10,000 would be contributed by residents of Sierra Madre not connected with our own or any other local church. This is less than one-eighth of the cost of building and furnishings. Considering material gains alone, the erection of our slightly new building, in its central location, will surely add many times \$10,000 to the market value of Sierra Madre real estate. The spiritual value of such an institution and its (Continued on Page Eight)

## Baseball Is Film Theme of Weekend

The two most popular things in America—baseball and the moving picture—are combined in "Slide, Kelly, Slide," coming tonight to the Wistaria Theater. One can not only see a thrilling screen drama but also the recent World Series. Wm. Haines, Sally O'Neil, Harry Carey, Karl Dane and other famous players are in the cast.

The feature for Sunday and Monday is "The Great Gatsby," featuring Warner Baxter, Lois Wilson, Neil Hamilton, Georgia Hale. It is a magical, living film, blended of irony, romance and mysticism.

## What's Doing At Theaters In Pasadena

### Colorado

"The Yankee Clipper" ranks as one of the season's greatest successes. It is an epochal picture that presents one of the most illustrious phases of American maritime history—the middle decades of the nineteenth century. An "Our Gang" comedy, "Gang Telling Whoppers," the International News, Romandi and his band, and a new Fanchon & Marco production, "The Feast of the Lanterns," featuring Honorable Wu, celebrated Chinese actor and an entire oriental cast.

### Florence

Without hesitation the management of the Florence theater pronounces the current attraction, "White Gold," a masterpiece and one of the greatest pictures of recent years.

Milton Sills in "The Sea Tiger" starts Sunday. Sills is a powerful man with a powerful mentality and virile roles have fallen quite naturally to his lot.

Charlie Chase in "Be Your Age," a knockout comedy; Aesop's Fables and Kinograms are also on the bill.

### Strand

Lon Chaney in "Tell It To The Marines" starts Saturday, April 23rd. A grim old fellow, this sergeant of the Marines, but under it all proud of his boys. It is a splendid picture.

### Camp Fire Girls Enjoy Trip to City—

The Ekolea Camp Fire Girls accompanied Miss Clara Sykes and Mrs. H. Shapiro on a very interesting trip to Los Angeles recently. After being shown through Bishop's candy factory, and having lunch in Sycamore Park they made a trip to the Southwest Museum where they spent the afternoon in all departments, particularly the art section.

Mrs. Laura Maxwell Fletcher of Chicago, who is enroute from Honolulu to the east, is visiting her daughter, Miss Leah P. Fletcher of 634 West Highland Avenue. She expects to leave tomorrow for Kansas City to visit relatives before returning to Chicago.

Mrs. E. F. Plummer is the house guest of her sister and brother-in-law, Mr. and Mrs. W. M. Barker of 281 Santa Anita Court. She expects to leave for her home in Seattle on Monday.

A chemical test for drunkenness is holding attention in the East. The suspect is told to blow up on ordinary football bladder. His breath is passed through a solution of potassium dichromate which changes color from yellow to green, according to the amount of alcohol present in the breath.

The special PAINT that  
Protects and Beautifies

Unpainted stucco breaks down under the attack of carbonic acid from the air. It also absorbs water—almost like a sponge. Dampness may linger for weeks—rusting the metal lath. As a result, the stucco develops unsightly streaks and cracks—finally crumbling away.

Stucco, in fact, needs painting even more than wood! But the ever-present lime causes "spotting" and destruction of ordinary house paint. Concreta is lime-resistant. It provides lasting protection for stucco. Moreover, its mellow, stone-like texture enhances the beauty of the natural surface. You have the choice of twelve colors—or white. Write for special illustrated booklet on Concreta.

### The Difference

Most men do not wake up to find themselves famous; most of them dream they're famous, then wake up.

The Wistaria Fete closed last Sunday and the many ladies who worked so hard will have time now to think about their gardens. We have all kinds of fine young plants at reasonable prices.

City Cousin: "Why do you paint the inside of your chicken coop?"  
Farmer: "To keep the hens from picking the grain outta the wood."

We have just received a supply of dry orange wood, that is just the thing for a quick fire these chilly mornings and evenings.

### Times Change

And to think just a few years ago being knock-kneed was misfortune instead of a dance.

## Interesting News Notes from Sierra Madre Canyon

Mrs. Norval Byrns and children of Long Beach, spent their Easter vacation week at "Ak-sar-ben," 661 Woodland Drive, the home of Mr. and Mrs. J. R. Thompson. On the evening of the 16th, Mrs. Thompson entertained a group of Canyon children. Appropriate Easter games such as egg rolling, egg tossing and black-bird pie were enjoyed by the children. Later Mrs. Thompson explained the significance of Easter to the young folks. Mrs. Thompson was assisted by Mmes. J. F. Seek, Bagby, N. Byrns and J. Ishoy in serving refreshments. The guests were Bettie Patterson, Wesley Byrns, Helen Bagby, Eldon Byrns, Verlin Byrns, Edward Frazer, James Ishoy, Emma Lou Shutt, Barbary Shutt, Freddie Ishoy, Clyde Seek, Birdie Frazer, Ina Byrns, Bettie Bagby, Norvall and Vola Byrns.

Mrs. Anna Madden and her mother, Mrs. Elizabeth Stratman, spent Sunday with Mrs. Stratman's sister, Miss Martha Reynolds. Mrs. Madden is engaged in the real estate business at Hermosa Beach.

Mrs. J. J. McAllister of Long Beach spent Tuesday in the Canyon as the guest of Mr. and Mrs. C. L. Virgin. Mrs. McAllister is associated with the extension department of the John E. Brown schools in Siloam Springs and Sulphur Springs, Arkansas.

Mr. and Mrs. J. H. Burke and family of Long Beach are spending the week with Mrs. Burke's parents, Mr. and Mrs. E. A. Anderson, at their cottage, "Lone Pine." Mr. Burke is an attorney in Long Beach.

### NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE ON FORECLOSURE OF MORTGAGE.

No. 212-261  
in the Superior Court of the State of California in and for the County of Los Angeles.  
BERTRAM W. FRANK and GERTRUDE B. FRANK, Plaintiffs,

vs.  
HORTENSE M. NICKLIS and JOSEPH E. ANGELLLO, Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 20th day of April, 1927, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against HORTENSE M. NICKLIS, Defendant, on the 9th day of March, 1927, for the sum of Thirty-eight Hundred Fifty-seven and 78-100 Dollars gold coin of the United States, which said judgment and decree was on the 10th day of March, 1927, entered and recorded in Judgment Book 638 at page 76 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the following described premises, situate, lying and being in County of Los Angeles, State of California, and bounded and described as follows, to-wit:

The East 43.96 feet of the West 263.92 feet of the North 80 feet of the South half of Lot Eighteen (18), of Alhambra, Map No. 2, in the County of Los Angeles, State of California, as per map recorded in Book 42, Page 76, Miscellaneous Records of said County.

PUBLIC NOTICE IS HEREBY GIVEN, that on Monday, the 16th day of May, 1927, at 12:30 o'clock P. M. of that day in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

Four generations of a family were represented at Sunday at "The Green Bells," the home of T. M. Clark and his daughter, Mrs. Lulu Belle Taylor. They had as their guests Mr. and Mrs. R. D. Smith and son Donald, and Mr. C. M. Taylor. Mrs. Lulu Belle Taylor is the mother of Mrs. Smith and Mr. Taylor.

Mr. and Mrs. R. E. Cowan were the guests of Mrs. Blackstone at the Ebell Club in Los Angeles on Wednesday. Mrs. Cowan was the guest of honor and delivered an address on her work.

Mr. and Mrs. C. J. Davis, 357 Loma Avenue, Long Beach, their sons, Landon and Curtis, junior, and Mrs. F. M. Landon, were guests on Saturday evening at Cadmus Villa. Landon Davis, violinist, and Curtis Davis, Jr., trumpeter, accompanied by their mother at the piano, gave an impromptu concert. Mrs. C. J. Davis was formerly teacher of piano at the Montana State Agricultural college at Bozeman, Montana.

Mr. and Mrs. Clarence L. Virgin and Miss Laura E. Cadmus have returned from a week's trip to the northern part of the state. While at Sacramento, Miss Cadmus was the guest of Mr. and Mrs. Walter Callahan, former Sierra Madre residents. Mr. Callahan has been appointed chief electrician for the state of California.

Mr. and Mrs. C. W. Weaver are at present occupying their cottage "Days Off." Mr. Weaver expects to leave soon for Florida where he is engaged in business and where he will be joined in the fall by Mrs. Weaver. Their daughter, Miss Ethel Weaver, teacher of piano in the Brawley schools, will spend the summer in the Canyon with her mother.

Mrs. E. P. Bradford motored to San Diego to visit her sister, Miss Betty Keeney, who had a leading part in the San Diego high school class play. Mrs. Bradford had as her guest on the trip Mrs. J. E. Elliott of Montebello. They returned home on the 14th.

On Tuesday, Daylight Court in Los Angeles honored Mrs. Lulu Belle Taylor by installing her in office as Truth at the regular installation of officers of this organization. There were five hundred members and guests present to witness the ceremony. The Court was beautifully decorated with shrubbery, arbors and a fountain in representation of a garden. The pink gowns worn by the newly installed officers made a charming picture. The assemblage was entertained by Edna Earle Pierce, soprano, Mary Belle Gunther, whistler, Helen Ethel Littlejohn, contralto and accompanist and Marian Tracie Whiting. Mrs. William Tell Burkhardt, also a Canyon resident, was the guest of Mrs. Taylor.

Last week Mrs. George W. Miller attended a garden bridge luncheon and shower given in honor of her niece, Miss Janet Jepson. The luncheon was given by Miss Jepson's cousins, Mrs. Arthur Bridge and Miss Margaret Tritt at the home of Mr. and Mrs. Bridge in Flintridge. Miss Jepson is well known among the young folks of Sierra Madre and her friends here will be interested to learn of her engagement to Mr. Wallace Breuner, announcement of which was made recently at a bridge tea at the home of her parents, Mr. and Mrs. Carl G. Jepson, 953 Menlo Avenue, Los Angeles. Miss Jepson is a graduate of the University of California and a popular member of Alpha Phi. Mr. Breuner is a graduate of the California University at Berkeley and a member of Theta Delta Chi. The wedding will take place in June.

At the last regular meeting of the board of trustees, the opinion prevailed that it would be unwise to expend the large amount of money necessary to recondition the present canyon swimming pool. While the trustees favored a swimming pool in the canyon, it was deemed advisable to give some consideration to the question of providing an entirely new pool at some other location in the canyon district.

Canyon residents will no doubt be somewhat disappointed to learn that there is small likelihood of a swimming pool this season. The new stringent requirements of the State Board of Health pertaining to the operation of swimming pools would necessitate improvements costing a much larger sum of money than had been anticipated.

### KINDNESS OF ORPHEUS FOUR

Even in this busy world there is time for kindness, as the Orpheus Four of radio fame, demonstrated Wednesday when they came out from Los Angeles to sing to an audience of one. Mrs. Mary R. Smith, who is ill at the home of her son, Mr. Ashley F. Smith, 365 West Central Avenue, was the recipient of this wonderful treat, which she only regretted could not be shared with the whole town.

Miss Rose Smith is acquainted with the Orpheus Four and they, hearing of her mother's illness, decided to cheer her up, which led to their trip to Sierra Madre and made a "red-letter day" in the life of Mrs. Smith.

Mary had a little lamb  
Which caused her near to faint,  
The lamb, to beautify, itself,  
Had rubbed its fleece in  
Acme paint.  
Now Mary's joy was turned to grief,  
That Acme Paint will not come off  
With use of only water.  
So to the tub the dear lamb went,  
And, soaked in paint remover,  
It's fleece came clear as a brand new cent,  
And Mary's troubles were over.

#### "YOU AND I"

If I knew you and you knew me,  
If both of us could clearly see,  
And, with an inner sight, divine  
The meaning of your heart and mine,  
I'm sure that we would differ less,  
And clasp our hands in friendliness;  
Our thoughts would pleasantly agree  
If I knew you and you knew me.

#### DIZZY FIGURES

FINANCIERS are not the only people who talk in big figures. There are a lot of conversational millionaires who are a long way from being financiers. You can hardly avoid hearing them in the street cars, elevators and barbershops of the big city. You are not supposed to know that they walk downstairs to save ten bucks on their suits and their jargon is merely a form of recreation like playing on the public links.

But there are plenty of other domains where one can talk in big figures and need not be a bluffer or a financier. Try being a scientist, for instance. The period following that last sentence—fifty billion electrons in a row would just about reach across it. Do you know how many cells compose the human body? Write the figures 26, and then add fifteen ciphers. Anybody who knows what fifteen quintillions mean, please stand up.

Of course the scientists may have changed their estimates by the time this is written. But that is part of the fun of being a scientist. One of the best things they do is to revise their figures. If one can talk of his real wealth in big figures, there are plenty of people ready to take it away from him by hook or crook. If he habitually talks in big figures about wealth he does not possess he is apt to be stamped as a bluffer. How much more fun to be a scientist and have the right to talk in big figures, with so few people capable of saying whether it is a bluff or not!

#### WHAT TONGUES TELL

WHAT a label a man puts on his soul by his conversation! The man who regales himself and besmirches the ears of his associates with filth seldom realizes what he is doing to himself. He probably has no care what he is doing to others. He does not realize that there is nothing more insidiously gripping than the mental appetite he is developing. He does not seem to believe that he is deliberately cultivating physical tendencies which may easily get the better of him.

Caught in the meshes of moral turpitude, few men would think back to the beginning where their sole offence was filthy conversation. But right there was where they missed the chance to keep on the right track. The man who cannot divert his habits of thought and talk from smut to decency is in a dangerous position. And the man who contributes salacious stories to those who are younger or less experienced ought to be ostracized or deported—and that goes double for the opposite sex.

Not everybody who tells a dirty story is a moral pervert. But there are few of the latter class who did not begin their careers with that kind of conversation. The lesson ought to be plain enough, for the evidence is altogether too common.

#### THE POMONA NEWSPAPER MERGER

(Claremont Courier)

POMONA'S morning and evening newspapers have merged into one—an evening edition only. The only sensible crit-

icism that can be offered is that it should have been done long ago. Pomona is not big enough to support two good dailies.

The burden of financial support for a newspaper must come from the merchants who are the principal advertisers. Two newspapers divide the circulation and make it necessary for any merchant who wishes to cover the field to advertise in both. There is double expense therefore for the merchant.

The two Pomona dailies covered substantially the same ground so far as local news is concerned. There was an expense for two plants where one was ample for all. Even if both a morning and an evening edition had been maintained, the consolidation of the plants was advisable. An immense amount of useless overhead expense has been eliminated.

One more step is needed. The advertising merchants should meet and solemnly resolve and agree to give no advertising support to any person proposing to start another daily newspaper in Pomona. The newspaper field is amply covered with the one evening paper.

#### CALIFORNIA'S HALL OF FAME

(Hemet News)

THOMAS STARR KING nad Father Junipero Serra will occupy the two California niches in the Hall of Fame. This is the result of an appropriation by the legislature to build statues of these noted Californians to carry out a decision made at a previous session.

There will be general approval of the selections. It is somewhat of a coincidence that both were preachers and high churchmen. Starr King was Unitarian and Serra Catholic. Each contributed much to the early building of the Pacific Coast.

Father Serra's work as padre of the missions is too well known to warrant rehearsing here, but his travels through the hills and valleys of California brought the first light of civilization, and never was there a more earnest or self-effacing worker for his religious faith.

Starr King is not so well known to the present generation, but history tells us that it was due to his efforts that California stayed in the Union instead of casting its fortunes with the Southern Confederacy. He traveled the length and breadth of the state preaching the gospel of patriotism and loyalty, risking his life for the nation he loved.

In the years immediately preceding the civil war secession and disloyalty was widespread. All of the southern counties had been settled by people from Louisiana, Alabama, Georgia and the Carolinas, and these were the ruling class. The Buchanan administration was controlled by Southern statesmen, and the army itself was honeycombed with disloyalty.

One of the United States senators had gone over to the Southern cause, and but for the efforts of men like King, Broderick, Stanford and others the legislature would doubtless have voted to join the ill-fated cause of the Confederacy.

Starr King is entitled to the belated recognition of his service to his country.

#### SHOW PLACES

(Santa Paula Chronicle)

SOME towns have very fine and handsome residences, with elaborately laid-out grounds, which give a fine, park-like effect and every visitor is taken to see them. He is supposed to properly admire all their finished beauty.

But when a visitor stops to think whether he would like to live in a community or not, he does not consider such gorgeous great places, but he looks at the average home.

If that average house has a touch of seediness, and the grounds are rather sprawly and poorly tended, with not much sign of cultivation, the visitor says that place never invites him to come and spend his life there. But if he sees people working in their gardens and fixing up their lawns, setting out pretty things and repairing defects, he says that is a real town, the kind you could be proud of as a home if you could get something to do there.

### Reservations

By J. R. E.

A faithful striver for greater and better things has succeeded in chewing 126 sticks of gum at once. Apparently it is possible every time he opens his mouth for an elephant to put its foot in it.

\*\*\*

Inasmuch as Reservations was crowded out last week, this week's offering is just twice as bad as it would have been had half of it appeared last week.

\*\*\*

Throw out the life-preservers.

\*\*\*

"Bank Bandit Shot to Death."—Newspaper headline. Let's see some smart lawyer get him out of that!

\*\*\*

"Bootlegger Suspect Languishes in Jail."—Headline. As soon as they find out for sure that he is a bootlegger, he'll probably get out on bail.

\*\*\*

A Solomon Come to Judgment  
A bootlegger, sentenced to San Quentin, hired a lawyer to plead for leniency and just for that the judge remembered a suspended sentence on a similar plea before, and now the b. l. will have to serve both sentences.

\*\*\*

Just as quick as a fathead public quits failing for public appearances of Peaches Brownings, Texas Guinans and Fatty Arbuckles we'll begin to have more applicants for jobs in laundries and on the section.

\*\*\*

And while Fatty is getting the bouquets, we wonder if anyone is putting any flowers on the grave of poor Virginia Rapp.

\*\*\*

Saw a poor cuss in a Ford caught between two big cars Sunday. The racket sounded like an earthquake in a tin shop, and the Ford looked like an accordion as a result of the fracas. Reminds us that the best sign we've read for some time said: "If you can read this you're too d— close."

\*\*\*

There are too many cars on the road. Why not divide 'em into six groups; group No. 1 to use the highways on Monday, No. 2, Tuesdays, and so on. And the fellows who don't have an accident on week days should be allowed to drive on Sunday. That would give the Chevy plenty of room to get around in, on Sunday.

\*\*\*

And to relieve the congestion, why not have half the cars big enough so that the little ones can run right under them. That would make it possible for the two-family-car idea to work harmoniously together. Or the big cars, instead of having to stay on the right hand side of the road, could move over to the left and the little cars could run right under them. Only in that case, visitors to the state for the first time would be under the impression that they were in a continuous tunnel. This idea may not be the right one, exactly, for solving traffic problems, but the deep thinker will admit it has possibilities.

What Price Fare to Canada?

It looks like poor Earl Carroll, who gave a girl a bath in a tubful of champagne at a party of recent date, will have to make little ones out of big ones at the Federal prison at Atlanta, Ga. Not because he gave the girl a bath—oh, dear no!—but because he lied about it. But don't worry, Earl! When you get out of jail you'll be worth a whole lot as a stage attraction, yourself.

A "lady" star in a play held obscene in New York City is serving a 10-day sentence after 270 performances of the said play. It took the law about the usual time to wake up. And here's another career given a splendid boost upward—she's now a potential star for the movie producers.

Three hundred and fifty-five couples entered in the dance marathon from L. A. to Santa Monica yesterday. There should have been enough institutions for the feeble-minded open at the other end so that the marathoners could have danced right into them and parked from now on. It would have saved the state a lot of grief later.

What this world really needs is a size 14 and a half shirt, the neckband of which won't shrink at the first washing.

### Observations

(By G. B. M.)

Phil Carter has acquired a sudden reputation as the champion potato raiser of these parts. The reason is a mammoth specimen in the News office window, labelled "Some Spud." Phil brought it in last Friday, asking how we would like to display a 50-pound yam which he had just dug. During the past week it has been attracting a remarkable lot of attention. Some people were skeptical, some took the trouble to inquire if it was really some kind of potato, and some "swallowed it whole."

The root is a fine specimen of Echinocystis fabacea or E. macrocarpa, better known as "Wild Cucumber, Big Root or Chilicothe." To one familiar only with the graceful, trailing vines, such an enormous root is hardly to be suspected. The vines often cover a radius of many yards. Large green pods, two or three inches in diameter and thickly covered with prickly spines or needles, bear the seeds. When the pods dry in autumn their tough, fibrous skeleton gives ample protection to the four large brown seeds. These seeds are among the many native herbs found by the Indians to have medicinal qualities. They roasted the seeds and expressed an oil which they used to promote the growth of the hair.

From its size the root gives the plant two of its comon names, Big Root and Man-in-the-Ground. Sometimes the roots are seen rolling in the surf after being liberated from the ground by the wearing away of seaside cliffs. It is intensely bitter.

A SPRINGTIME FAVORITE—The mountains are beautiful at this season largely because of the abundance of Ceanothus divaricatus, or California Lilac. Its masses of delicate bluish-purple blossoms give a mystic, ethereal tinge to great areas of the mountain slopes. The flowers vary in shade to white, although they are often confused with another variety, Ceanothus integerrimus, which is pure white.

The flowers of these shrubs have a peculiar quality which gives them the name of Soap Bush. Take a handful of them to the bank of a stream, dip your hands in the water and rub them together. The flowers will develop an abundant lather, with a pleasant fragrance. This property was well known to the early Mexicans and Indians. The cleansing effects are excellent and the skin is left pleasantly soft.

These shrubs are among the most beautiful to be found for landscaping purposes. They are readily adaptable to garden planting and, like many other native plants, are becoming increasingly popular.

### Bible Study Conference Three Days

The third annual Bible Conference, under the auspices of the Woman's Missionary Society of Bethany Temple, begins Monday evening, May 2nd, with an address by Rev. Harry H. Rimmer, which will be of special interest to the young people.

There will be speakers at 10 and 11 a. m. and 1:30, 2:30 and 7:45 p. m. on Tuesday and Wednesday, May 3rd and 4th. The program is filled with unusually fine speakers of which Dr. John MacInnis, Rev. John McNeill, Rev. James H. Hutchins, Mrs. Louis Turnbull and Mrs. Helen Norton Johnson are a few.

It is unusual to have such good speakers for so small a place, and affords a splendid opportunity of listening to the inspiring messages they have for all. Tell all your friends about it.

### FORTY YEARS AGO

(From the Sierra Madre Vista)  
The cornerstone of the Episcopal church was laid with appropriate ceremonies.

A party of fifteen Los Angeles people passed through on their way to Wilson's Peak, obtaining burros from Mr. Deutsch to transport their camping equipment.

E. J. Baldwin shipped about 30 of his race-horses to Lexington and Louisville for the eastern racing season.

A post office was established at Arcadia, the postmaster being Mr. Requa, Mr. Baldwin's urbane bookkeeper.

Plans were drawn for a beautiful new brick depot at Santa Anita, to be erected if Sierra Madre people would contribute \$500 toward the cost of \$5000. Mr. Baldwin agreed to donate \$2500.

The Vista office was made more attractive by gifts of roses from Miss Fannie Hawks and Mr. Rel-yea.

The Ladies Social Union of the Congregational Church gave a program which included numbers by Mrs. P. T. Reed, Capt. and Mrs. J. A. Osgood, Mr. and Miss Stevenson, Mrs. Copps, Mr. Mead, Mr. and Mrs. Rushford, Miss Davis and Mrs. Hook. Mrs. Dickson and a number of young girls.

### TWENTY YEARS AGO

B. R. Baumgart of Los Angeles lectured before the Woman's Club on Russia.

Mrs. Thomas Henszey was injured in a fall over a precipice near the Quarterway on the Mt. Wilson Trail.

Yerxa Brothers purchased the meat market of J. D. Rasmussen, pioneer Sierra Madre butcher, incorporating it with the Robinson grocery business recently purchased by them.

George Humphries and Dr. J. M. Campbell attended the conference of the Congregational churches in Redondo Beach, Dr. Campbell being appointed moderator of the session.

Roth & Seely reported the sale of five 60-foot lots in Piedmont Heights Tract to H. C. Kelsea of Compton for \$3600; 100 feet on Palm Avenue to E. E. Hamman of Long Beach for \$1200, and lot 39 of Valley View Tract to J. W. Wilder for \$400.

The old school house at the corner of Central and Baldwin was advertised for sale by the school trustees. The site had been exchanged to C. S. Kersting for the lots on which the new building and Hermosa Avenues.

School opened for the spring session in the new 5-room building which cost about \$14,000. The site was valued at \$4,000. The building was considered a model of beauty and utility and attracted visitors from all over the county.

### TEN YEARS AGO

A. T. Gay moved his undertaking business into the building just completed for him by Contractor George Clark at the corner of Central and Hermosa. The handsomely designed building embodied the latest ideas in such establishments.

With impressive exercises the flag was raised on the newly erected pole at the corner of Central and Baldwin. A company of Seventh Regiment soldiers from Ross Field participated. The crowd was reported the biggest ever assembled in Sierra Madre. Funds for the flag pole were raised by a committee consisting of Messrs. Sperry, Rodell, Pegler, Osgood and Evans. Speakers on the program were Messrs. Sperry, K. M. Ham, John W. Hart, Lieut. Clotworthy and Rev. F. G. Tyrrell. The flag was hoisted to the top of the pole by Miss Mattie Seeley, as "The Star Spangled Banner" was played by the Sierra Madre Band under the direction of T. M. Webster.

Word was received of the appointment of Charles Camp to the post of First Lieutenant of a Columbia University military company.

### A Lecture on Christian Science

Entitled "Christian Science: Its Relation to the Destiny of Man" By Paul Stark Seeley, C.S.B., of Portland Oregon, Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

Have you ever pondered the question as to what is the goal of all progress? Almost every one is interested in progress. The child desires to outgrow the limitations of childhood. The adult seeks to advance into wider fields of accomplishment. Artists, musicians, business men and women all share these impelling motives to progress into larger attainment.

Religiously, socially, economically men endeavor to progress through overcoming the limitations of ignorance. Nations advance into improved modes of law and government, into wider commercial activity, into more effective means of education and national betterment. Many nations are looking toward the objective of universal peace.

What unseen power impels these moves, and toward what are we all moving? Our tents are struck, but from whence are we, and whither are we going? What is the destination of man? Christian Science is answering these questions to the satisfaction of a rapidly increasing multitude.

Whence and Whither One man in history has been able to say with the finality which comes of understanding, "I know whence I came, and whither I go." His name is Christ Jesus and his influence on the thought of men has been so enduring that time is measured from the advent of his teaching. An eminent English historian and author states that every notable forward step in human progress since the ministry of Jesus has been a step toward a fuller expression of his teachings.

Christ Jesus understood fundamental realities. He possessed an understanding of that primal cause which men have named God. He taught that man is linked by indestructible spiritual bonds to this divine principle, or causative Mind. He taught how man, as he learns of his relation to God, may utilize divine power to overcome the pains of the flesh, the miseries of earth, and finally all the bondage of belief in matter. He taught that since God is Spirit, or Mind, all this is a mental process. He taught that heaven, God's creation, is not found by dying, but

following described premises, situate, lying and being in County of Los Angeles, State of California, and bounded and described as follows, to-wit:

The East 43.96 feet of the North 306.88 feet of the North 80 feet of the South half of Lot Eighteen (18) of Altadena, Map No. 2, in the County of Los Angeles, State of California, as per map recorded in Book 42, Page 76, Miscellaneous Records of Los Angeles County.

PUBLIC NOTICE IS HEREBY GIVEN that on Monday, the 16th day of May, 1927, at 12:30 P. M. o'clock of that day in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

by thinking. He taught that as you and I utilize our ability to think from the basis of Spirit as Cause instead of from the basis of matter as cause, we shall find God, the true creation, and the real destiny of man. These were his teachings, and he said, "I am the way . . . no man cometh unto the Father, but by me." That is, it is only by gaining that state of spiritual consciousness which he had, that we can find our true being.

Christian Science teaches only what the Master taught. It has no creed save the Master's teachings. In the intervening centuries much of the practical healing import of these teachings has fallen into disuse. The purpose of Christian Science is to restore them in all their truthful beauty and divine effectiveness.

Mary Baker Eddy

Archaeologists in Egypt once searching for treasures thought to be buried deep beneath the desert sands came upon a single step, uncovered by the desert winds. Zealously they dug about it and uncovered another step and then another. These led them to a solid wall. It was broken thru with difficulty and they came into a room beyond which was yet another wall. Again they set themselves to break through the barrier of stone, and when it was finally removed they found, unharmed and intact, the costly treasures. So it was with Mrs. Eddy searching amid the desert sands of human theories for the hidden treasures of spiritual truth.

She found one step, then another, and another. One was the discovery that the only efficacy of drugs is in proportion to faith in them, another was that the human mind is not a divine healing agent, and that hypnotism is the opposite of divine power. The steps often seemed to lead to impassable barriers, the false education of centuries, the scorn of friends, the persecution of enemies, but pressing on she found intact those spiritual truths about God and man which Christ Jesus said should never pass away.

Perfection and Reality

What, then, is it that Christian Science teaches? On page 353 of Science and Health Mrs. Eddy writes: "Perfection underlies reality. Without perfection, nothing is wholly real." Perfection, the condition of reality, is this not the goal toward which men are slowly moving? However far we may yet seem from its attainment, it is not the objective, the destination, yet dim in the gloaming of imperfection's shadows?

He who knew whence man came and whither he goes had no hesitation in giving the unconditional command, "Be ye therefore perfect, even as your Father which is in heaven is perfect." Would he have wasted words bidding men do what there is no possibility of doing? He spoke well knowing that he was declaring the purpose of existence, the legitimate and attainable goal of all intelligently directed endeavor.

What does perfection mean? It means that which is complete, blameless, not lacking in anything. Do you think that an absolutely intelligent cause would produce an incomplete, blameworthy and imperfect creation? Is perfection anything more than the natural effect of supreme wisdom? Jesus was but bidding us discover and demonstrate the order of being which is natural to God.

But alas, what is between us and perfection? A world of imperfection, it seems, and we seem to be in it. Can we gain dominion over and freedom from this? We can. Jesus did so and said we should do the same. The process he showed was mental. It is what Paul referred to when he said, "Be ye transformed by the renewing of your mind." It is that mental change mentioned by Jesus when he told Nicodemus that he must be born again—gain a different consciousness of life and manhood—before he could find God's creation.

The Scriptures have much to say of the new heavens and the new earth. Paul speaks of the new man. The former order is not to be remembered nor even to come into mind, Isaiah tells us. But when is this change to be? Orthodoxy says in the future. Christian Science says in the now. The Master never taught that heaven is linked with futurity. God and His creation were present realities to him. "The Kingdom of God," he said, "is within you." "The kingdom of heaven," he said, "is at hand." There is no suggestion of delay or dying in this. Delay is one of evil's chief barriers to spiritual achievement. In Isaiah we read, "I bring near my righteousness; it shall not be far off, and my salvation shall not tarry."

Christian Science teaches that death is not the gateway to heaven. Death leaves mortal man as materially conditioned as before, though in a realm of thought not discernible by those here. The individual must yet awaken from his misconceptions of being by the same thought processes which he might have employed here. An agnostic has said: "If I die and find myself in heaven I will be pleasantly surprised. If I die and there is no heaven I will never know it." He overlooked the fact that if he dies ignorant of spiritual, or heavenly, things he will awaken as unfamiliar with them and as unhappily conditioned as before. Life's problem will still be before him. Discovering this he can only have regret for his accumulated troubles and neglected opportunities.

Mind and Its Creation Is God

Men have long believed that God and creation are separated, that man is outside and apart from divine life. The Bible does not teach so. Christian Science does not teach so. Both teach that God is Mind, in which is the full expression of Mind. Intelligence embraces its manifestation. God is not a limited, humanly personal being. God is infinite, supreme, intelligence including and controlling every real expression of Life and intelligence. As the varied expressions of mathematics are one with, and within the purview of, the principle of mathematics, as all musical tones, in their almost endless associations of harmony, are in, and ever subordinate to the principle of harmony, so every expression of Mind has its place within the universal Principle, which we call the Supreme Being, or God.

Man Is God's Manifestation

The word man and the word manifestation come from the same root. Man, Christian Science teaches, is in reality the individual manifestation of God. Christ Jesus showed this to be so. He who is recognized as the most Godlike individuality men have been able to perceive did what? He did Godlike things, spoke Godlike words, thought the thoughts of God, and accomplished Godlike acts, destroying evil and inhumanity in its every condition. Is it not clear that in his life we may see the real purpose of man's being—namely to image forth in thought, word, and deed, the Life, the Truth and the Love which is God?

Mortal Mind Is God's Opposite

As God is the one universal intelligence, or Mind, constituting and governing all true identity, so evil, the opposite of God, is a lying sense of mind and its manifold expression. This false sense of mind is shown in thoughts of hate, fear, disease. It is evidenced in the thought which believes matter is cause, that matter contains life and that evil is power. This lying and senseless opposite of God is termed in Christian Science mortal mind. It offers its lie of identity in material, temporary bodies. It opposes reality at every turn, wisdom with ignorance, brotherhood with strife, kindness with cruelty, provision with lack, health with sickness, life with death. Its lie is double-faced, for with its pain and discord it offers a sense of sinful pleasure, a transient sense of beauty, a temporary sense of health, and sometimes even a politic sense of goodness. Thus would it deceive.

man may, though the whole world be in opposition, demonstrate thru spiritual power his God-given freedom from the discords of the earth. The transition is not likely to occur in a moment. It will occur in the proportion that we gain the Mind of Christ. The battle ground is within. The enemy is the belief that matter, God's opposite, and so-called material life, is our being and holds us in its grasp to determine our condition, our health, and our destiny. The enemy's most active agent is that false mortal sense of self which it would have us believe is our identity. That sense of identity which is fearful, selfish, sick, sinning, willful, proud, and self-satisfied, expresses not true manhood but a state of infatuated ignorance. There must be riddance of this empty useless sense of being. The house cleaning must be thorough. A good housekeeper once told me that she could always tell whether a woman was thorough in her house-keeping by the condition of her

cellar. Sometimes we dust out the upstairs and things appear in order, but down in the cellar and secret chambers of thought there is more rubbish than we will acknowledge. Sometimes it is a haunting fear, an unhealed resentment, a smug sense of self-attainment, an inclination to dominate others, a besetting sin, a stubborn reluctance to yield thought to the will and purposes of God. These are some of the evils that ask to be let alone. All can be faced without fear, and the sooner we let Truth into every nook and cranny of our thinking, purging every thought, motive and purpose, the sooner we shall find real being.

## Listening-in With Luellen

When you have passed away, my friend,  
And some day you must die,  
Your friends will talk about you  
Then  
And laud you to the sky.

You ought to have some mention  
While

You tread this vale of tears,  
You should not be obliged to wait  
For seven hundred years.

You want your fame while you're  
Alive,

And hearty and well fed,  
You can't afford to wait for it  
Till after you are dead.

The folks won't know how great  
You are

Unless you put 'em wise;  
You want your laurel wreaths  
Right now!

Get busy—Advertise!  
—Luellen.

The bolero is equally as popular  
For afternoon or sports wear.

The full skirt with a hip yoke  
is a new note.

Metal cloth and narrow beaded  
belts are being seen.

There is to be a return to vogue  
this summer of cotton dresses.

Gingham will be much in evidence,  
also rayon, links flannel  
(which is cotton) junior tissue and  
voile. To trim these wash dresses  
the shops are showing a great  
variety of tubable braids and  
trimmings in charming designs  
and colors.

When youth dines or dances she  
is smartly frocked in chiffon and  
lace. Lace is steadily increasing  
in favor for party dresses, and in  
combination with chiffon is very  
lovely.

Jabots are slowly and subtly  
returning to favour. Only an occasional  
dress is touched with  
them, but such dresses are a success.  
The jabot may be made of  
lace, preferably deep cream or  
yellow; or the same material as  
the dress softly pleated or gathered.

Maggie fashions are an exactly  
half and half proposition—half  
black, half white. There is no  
quarter no more popular combination.  
There are many striking  
being shown in black and  
white prints.

"Send it to the laundry."  
There is no easier, more satisfactory  
method of solving the  
family laundry problem. Today's  
laundry offers services to fit every  
family's needs and every family's  
pocketbook. All ironed service,  
partially ironed service, ruff-dry  
service. Give a laundry—the modern  
wash-day help—a trial.  
Telephone Red 42 for Mr. Roy  
Edwards, the local representative  
of the efficient Troy Laundry of  
Pasadena, to call and "take it to  
the laundry."

We are told by authorities that  
a frown produces sixty-seven  
wrinkles and that there are only  
fifteen wrinkles in a smile. The  
difference, then, between a smile  
and a frown is fifty-two wrinkles.  
To be happy and young—smile.

A pair of glasses is much more  
than just "a pair of glasses"  
nowadays. To perfectly fitted  
lenses are added a choice of many  
beautiful and becoming styles of  
frames. The ever-popular and  
practical tortoise shell frames are  
made in several shades and styles.  
Then there are the gold and silver  
frames of various types, and to  
the fashionable woman who only  
occasionally requires the use of  
glasses there is the lognette.

Glasses expertly fitted by Dr.  
W. G. Barks, optometrist, at 509  
So. Myrtle St., Monrovia, will be  
a source of great comfort and will  
add materially to the enjoyment  
of good health. Dr. Barks, who  
has been established in Monrovia  
for many years, also fills prescriptions  
and replaces lenses. His  
hours are between 8:30 and 5, ex-  
aminations are made by appointment.

A scientist says houses will soon  
become extinct. Homes have al-  
most become so.

A glance at one's luggage on  
the train—at one's clothing on the  
street—at one's furniture in the

home. Fleeting, often superficial  
impressions—but so we are judged  
by many who look no further.  
Home furnishings in particular  
catch the eye of the visitor and  
tell a tale of smartness or lack  
of taste.

A room furnished by the Sierra  
Madre Furniture Store, at 14 No.  
Baldwin, affords the owner the  
assurance of correct design and  
acknowledged elegance which  
means so much when critical eyes  
are appraising your home. If the  
particular piece you desire is not  
found on the floor of this company  
they extend the courtesy of taking  
you to Los Angeles' largest  
wholesale houses where your selections  
may be made, thereby giving  
you wide choice and great savings  
in all house furnishings.

We expect short weight in some  
things, but we always expect a  
full measure of happiness.

For buying, selling, exchanging  
or renting a home or property  
there is no method of procedure  
as productive of results as listing  
it with a well known and compe-  
tent real estate agent. If your  
home is for sale you'll sell it  
more readily, and with less trouble  
to yourself by so listing it.

Woodson F. Jones, manager of  
the Sierra Madre Realty Co., at  
31 North Baldwin, is a licensed  
real estate broker, handling all  
types of properties; he will compe-  
tently help you with your real  
estate problems. Mr. Jones also  
writes fire and casualty insurance,  
being the local agent for the Con-  
tinental Insurance Co., one of the  
oldest companies in America. Tele-

The main thing about an auto-  
mobile isn't always the amount of  
horsepower it possesses. Often-  
times the amount of horse-sense  
its driver possesses is far more  
important.

Here in California, with its days  
of continued sunshine, the ordinary  
finish of an automobile more  
quickly fades and checks, assum-  
ing a weather-beaten look. Keep-  
ing in the line of progress, the  
manufacturers have at last pro-  
duced a beautiful and durable fin-  
ish for all makes of automobiles.  
"Acme Pyroline," a new Duco type  
of finish, will enable you to beau-  
tify your car with a new paint  
job. There is true satisfaction in  
a car, bright and spotless, that  
you can drive with pride.  
J. Milton Steinberger, author-  
ized Ford dealer, corner of Central  
and Windsor Lane, has in-  
stalled complete equipment for ap-  
plying "Acme Pyroline" in all its  
many colors. Why not see about  
that new paint job right away?  
There is a heap of satisfaction in  
driving a car well groomed. Tele-

Automobiles are becoming so  
numerous that the demand for  
pedestrians will soon be larger  
than the supply.

Most delicious foods were dis-  
covered by mistake. So the freezing  
process used all over the  
world in making ice cream was the  
happy mistake of one Vatel,  
a Swiss cook of the reign of  
Louis XIV, that gourmand of good  
things to eat. Vatel was planning  
to serve his majesty with pure,  
sweet cream in a bowl of ice when  
he accidentally dropped salt in the  
ice and saw that the cream began  
to freeze. He stirred the cream  
and the freezing continued, so he  
served the frozen mass as ice-cream.

The confections and soda foun-  
tain specials at Pettitt's Candy  
Store and News Stand, Kersting

with delight—they are always  
wholesome, fresh and delicious. Do  
you know that here you may order  
Crescent ice-cream cakes and  
Crescent ice-cream in fancy molds  
for your parties? Or perhaps it  
is candy for a smart bridge lunch-  
eon, a tea or dinner? Whatever  
the function, Pettitt's will arise to  
the occasion nobly. Crescent is  
now packing three delicious fla-  
vors of ice cream (French Vanil-  
la, Fruit Salad and Banana Nut)  
in individual cartons at ten cents  
the carton. There are a generous  
serving for one and make a de-  
licious and attractive dessert. Tele-

most appetizing sandwiches.

there are no better dairy products  
obtainable than those of the  
Sierra Madre Dairy at 241 East

mornning and evening delivery, of  
raw milk, cream, whipping cream,  
cottage cheese and butter—all

**Vegetables**  
Vegetables form the most im-  
portant and nutritious part of our  
diet—serve them generously each  
day. All vegetables should go  
over the fire in boiling water, and  
as a rule should be cooked in  
an uncovered vessel.

Vegetables containing starch,  
sugar and protein are potatoes,  
carrots, beets, peas, beans, etc.  
Vegetables used for mineral salts,  
acids and water are lettuce, spin-  
ach, tomatoes, etc. Vegetables  
used mainly for bulk are cabbage,  
radishes, cucumbers, etc. Vegeta-  
bles containing nitrogen and  
starch (such vegetables are known  
as legumes) are peas, beans, len-  
tils and peanuts. These furnish  
a hearty food and are exploited  
by vegetarians to take the place  
of meat in the dietary. The so-  
called succulent vegetables are  
useful for their natural salts.  
These vegetables—spinach, green  
peppers and asparagus—should be  
cooked in very little water so  
their salts are not lost in the  
cooking. The salad plants—let-  
tuce, chicory, endive, etc.—supply  
natural mineral salts and volatile  
oils.

A complete variety of fresh  
fruits and vegetables may be ob-  
tained at Roberts' Vegetable Mar-  
ket at all times. Their stock is  
replenished fresh each day and  
only the best fruits and vegetables  
obtainable are carried. You know  
their location—the attractive veg-  
etable market in the Safeway  
Store at 58 W. Central. For your  
convenience orders of one dollar  
and more are delivered. Telephone  
Main 227.

With a little care cabbage heads  
make an excellent salad bowl in  
which to pile the cabbage and  
apple and celery salad.

A highly seasoned cheese mix-  
ture (any soft cheese, mashed up  
with butter, cayenne and Wor-  
chestershire to taste) makes a de-  
licious filling for celery stalks.  
Radishes or dill pickles may be  
hollowed out and so filled, too.

## Receipts Set Record For Famous Fete

Total receipts from the Wistaria Fete during the three weeks of its operation amounted to \$8300, according to reports of H. E. Allen, treasurer. This exceeds by \$100 the record established last year in two weeks. The handicap of cold, wet weather undoubtedly cut down this year's receipts by at least 50 per cent. Net profits cannot be announced until all the bills are accounted for.

No record was made of the attendance this year, the register having been used only a part of the time, so there is no basis of comparison from that source.

In last week's story of the fete and the workers "behind the scenes," two ladies were overlooked who deserved special mention. One was Mrs. Rihard who was always on duty at her home, ready to see that the requisite number of waitresses were on duty. Working with Mrs. Hawks who had charge of the luncheons and Mrs. Glidden who had charge of the afternoon teas, she was an important factor in the successful table service, though entirely unknown to the public.

Mrs. Bunch established something of a record by supplying for the cooked food table a regular supply of delicious health bread. Many hundreds of loaves were baked and added much to the revenue of that department. She uses an old family recipe and the product made a great hit. Those who purchased it will be glad to know that she expects to continue baking it for local distribution.

Four hundred women from the Women's City Club lunched under the historic grapevine prior to the matinee performance of the Mission play, recently. Society in general throughout Southern California has taken an especial interest in the famous play by John Stephen McGroarty since the opening of the new playhouse, and hundreds and thousands who have seen the play once or twice or more times in the old auditorium are eagerly attending again in the superb new theater, one of the finest in all Southern California, which is noted for its beautiful playhouses.

## RAMONA STORY AGAIN TO BE TOLD AT HEMET

Hemet, April 22.—With the arrival in Hemet of Victor Kolberg, chosen from a list of twenty well known stage and screen stars applying for the role of Alessandro in the Fifth Annual Ramona Pageant, the entire cast of the stupendous outdoor drama which opens its 1927 season Saturday, April 23, is now on the ground. Kolberg, according to Garnet Holme, director of the production, is an admirable type for the part of Alessandro, ill-fated lover of Ramona. He has played leading roles in numerous legitimate plays in New York and Chicago and during the past year has made a reputation in motion pictures.

Dorise Schukow will appear as Ramona in the play for the fourth season. David Imboden, lately of the cast of "The Firebrand," has been selected to play Felipe.

The cast of more than 200 players is in daily rehearsal in the Ramona Bowl, the natural amphitheater south of Hemet in which the play is staged. The amphitheater has been greatly improved for this year's production. Twenty-four hundred additional cement seats have been built, water systems have been developed and drinking fountains are provided in the aisles. The road leading to the theater has been widened, making it more accessible than ever before.

Arrangements have been made to handle a total attendance of 40,000 at the six performances this year. The dates are Saturday and Sunday, April 23 and 24, Saturday and Sunday, April 30 and May 1, and Saturday and Sunday, May 7 and 8.

A radio ordinance will be presented to the city council of Santa Rosa seeking to clear the air of interference, for the benefit of listeners-in, by regulation of all electrical devices capable of interfering with radio reception.

## St. Rita's to Give Enjoyable Party

The ladies of St. Rita's Altar Society will give another of their popular card parties in St. Rita's hall Monday night, April 25. Bridge and 500 will be played, starting promptly at 8:15. The ladies announce that there will be a beautiful door prize, a non-players' prize and numerous prizes for high scores. Refreshments will be served and every effort made to maintain the high standard set by the previous affairs. The ladies expect to continue these card parties on the second and fourth Monday nights of each month.

## Dr. Elk Takes Practice of Dr. Stoddard

Dr. Harold Elk, who arrived here recently from Davenport, Iowa, has taken over the office of Dr. C. F. Stoddard at 71 North Baldwin and will carry on the practice of chiropractic. He has equipped the office with the Neurologometer, an instrument for determining nerve conditions requiring chiropractic adjustment. Dr. Elk is a graduate of the Palmer school at Davenport and comes highly recommended. He expects to make Sierra Madre his home.

Stafford Sadler and Richard Young are members of the cast of "Cyrano de Bergerac," current attraction at the Pasadena Community Playhouse. J. N. Hawks will be seen there again in a play which is now in rehearsal.

Dean and Mrs. Shaw are to spend the next three weeks at Hermosa Beach. Dean Shaw has been asked to take charge of the parish there in the absence of the rector who is taking a vacation trip to Hawaii.

## Church Fund Increased by Large Sum

(Continued from Page One)

work, especially for the children and youth of the community, is beyond measurement in money.

The membership of our church would be glad indeed if we were able to finance this undertaking by our own contributions alone. It is only because we find ourselves unable to do that without a delay which would mean irreparable loss to the whole community that we have appealed for assistance from others.

Even so, we have no purpose or desire to divert to our project any financial support which would normally go to other religious organizations in Sierra Madre. None of them, we believe, are now contemplating new buildings. And if, when our own has been completed, and its accommodations utilized, it shall come the turn of some other organization to build a new church in Sierra Madre, we can promise the hearty good-will and co-operation of our members and adherents.

It perhaps is not generally known that our organization, while Congregational in name and denominational affiliation, is in reality a union church. In its adult membership the Congregationalists are far outnumbered by former members of the Methodist, Presbyterian, Baptist, Christian, Lutheran and other denominations. In our affiliated organizations ("Ladies Aid" and "Men's Club") there are individuals of the Catholic and Jewish faiths. We keenly appreciate and welcome their fellowship of service in a cause which is theirs as well as ours, the cause of Humanity! In that cause men of all creeds, and of no creed, can unite in the spirit and by the example of The Son of Man!

It is in the name and for the sake of that worthiest of all causes that we ask the co-operation and support of the community at large. If the response is as generous and prompt as we hope, we shall be able to commence our building in June and complete it by December of this year.

"We thank you!"  
E. E. BACON,  
Vice Chairman,  
Building Committee.

Word has been received from Long Beach that Billy Cover, son of Mr. and Mrs. C. A. Cover, underwent a serious appendicitis operation last week. Fears for his recovery were entertained but he is now said to be progressing as well as could be expected.

## AND THEN IT 'GOT' WARMER

Most of us wished for better weather during the Wistaria Fete and now our "wishes" have been satisfied. Better late than never.

Many of us are wishing that real estate would move — merchants are wishing for more biz. — of course the ice man is delivering ice and this because the Good Lord has created a demand for ice — get the point!

The many women who worked late and early during the past few weeks deserve the thanks of our citizens and the many thousands who "braved the storm" came, saw and conquered the Wistaria Vine! The wonderful spirit shown and developed during this community affair speaks well for our women folks.

Client in Los Angeles has an apartment in one of the best apartment houses in the city — near Westlake Park — modern, ice machine, everything furnished and clear. He wants to live in Sierra Madre — a nice bungalow would do. Who wants to move to L. A.?

Kinda tired today — run out of ideas maybe. Still "Humpservis serves you right."
